

BRIDGES

Destination #1 (of 5) on Family Outing Scavenger Hunt for Historical Destinations

In lieu of a group field trip, we are providing information for a self-guided tour of 4 local historic bridges to go along with the Building Bridges workshop conducted Friday, October 12th. To complete the bridges tour, read the information sheet below and have your 4-Her use an internet mapping program (like Mapquest) or use a Virginia paper map. The 4-Her should help with navigation to find the bridges. Please try to view at least 2 bridges to complete this item. For documentation, take a photo with the 4-Her in front of the bridge. This self-guided tour will ALSO serve as the first destination of the year long Nokesville 4-H Family Outing Scavenger Hunt for Historical Destinations. There will be at least 5 destinations (4 are not yet determined) on the scavenger hunt to complete before next September. Please check nokesville4-H.org in November for the next destination (#2) on the list. At some of these historical destinations, the 4-H will be required to get their Time Traveler passport stamped. These passports can be picked up at any major national historical site and I will hand them out at meetings.

Nokesville Truss Bridge ** (added 1978 - Structure - #78003040) NE of Nokesville on VA 646, Nokesville (No photo available)
